Hiring Manager,

ORACLE BENGALURU, KARNATAKA, INDIA

Thank you for the opportunity to apply for the Software Engineer (Machine Learning and deep learning) role at Oracle. After reviewing your job description, it's clear that you're looking for a candidate that is extremely familiar with the responsibilities associated with the role, and can perform them confidently. Given these requirements, I am certain that I have the necessary skills to successfully do the job adeptly and perform above expectations.

I am a final year student (Bachelor of Science in Computer Science) at Madan Mohan Malaviya University of Technology, Gorakhpur. During the course of my academic career, I also managed to accrue nearly 6 months of internship experience. I had the privilege of working for Prithvi.AI in a **Data science intern** role in my free time, where I learned valuable professional **skills such as Machine learning, Deep learning and computer vision algorithms for prediction and analysis of data.** I learned **Building, Training and optimization techniques of Neural Networks.** In both my academic and professional life, I have been consistently praised as quality-oriented by my professors and peers. Whether working on academic, extracurricular, or professional projects, I apply proven research, creative thinking and leadership skills, which I hope to leverage into the Machine Learning Engineer role at your company.

After reviewing my resume, I hope you will agree that I am the type of competent and competitive candidate you are looking for. I look forward to elaborating on how my specific skills and abilities will benefit your organization. Please contact me at 91-896-088-0615 or via email at gaurav82692@gmail.com to arrange for a convenient meeting time.

Thank you for your consideration, and I look forward to hearing from you soon.

Sincerely,

Gaurav Singh
